

Hand Stacker Full Electric

Hand Stacker Full Electric is used for loading and unloading, stacking, stacking and short-distance transportation of pallet goods. International Organization for Standardization ISO / TC110 is called industrial vehicle. Hand Stacker Full Electric is applicable to operations in narrow passages and limited spaces. Hand Stacker Full Electric refers to various wheeled transport vehicles for loading, unloading, stacking, stacking and short-distance transportation of packaged pallet goods.

1. Introduction of the Hand Stacker Full Electric

The semi electric stacker adopts a new rear axle structure to make the stacker structure more reasonable. The semi electric stacker adopts imported pneumatic spring handle device, which is more convenient and reasonable. The semi electric stacker adopts the formed gantry made of raw materials imported from Germany, and the quality is strictly controlled. The semi electric stacker adopts the oil pump imported from Italy, and the domestic high-quality oil pump can be replaced according to the customer's requirements. The semi electric stacker adopts pedal type light design, which has the characteristics of lighter push and pull, lighter and more flexible, and more convenient to use. The scientific, safe and reliable braking system of the semi electric stacker greatly improves the safety of the semi electric stacker in practical application. The semi electric stacker adopts a special connecting rod structure, which greatly prolongs the service life of the machinery and facilitates maintenance.

2. Product Specification of the Hand Stacker Full Electric

Load capacity	1T	1.5T	2T
Max. Lifting Height	1.6M 2M 2.5M 3M	1.6M 2M 2.5M 3M	1.6M 2M 2.5M 3M
Min.fork height	90mm		
Fork length	800mm		
Power Souce	DC		
Battery	12V/120AH		
The width of forks	680mm		
Plug	plug can be custom

lifting motor power 1.6KW

Material of Wheel Nylon/PU

After-sales service Provide accessories and video technical support

Colour can be custom

Certification ISO/CE/SGS/BV

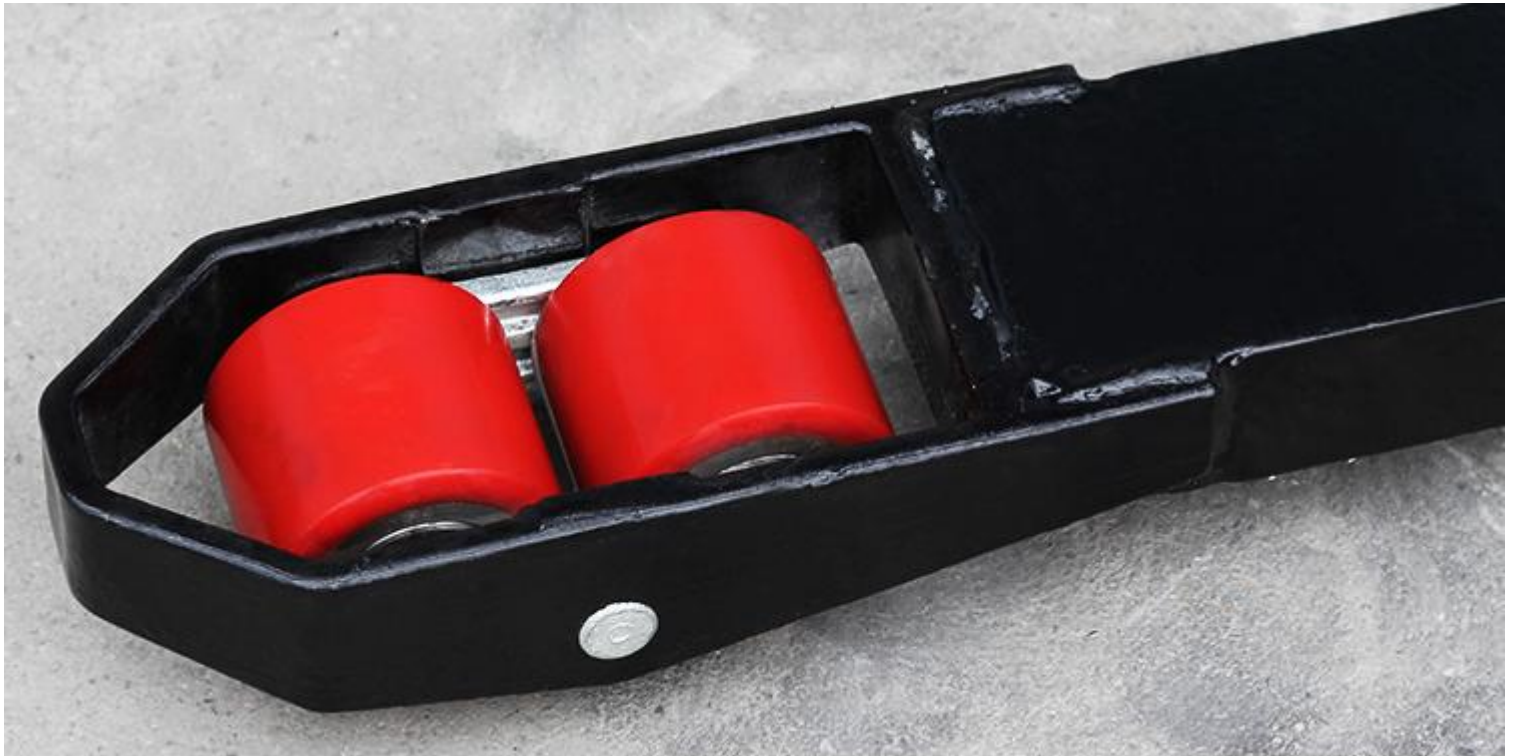

3.Hand Stacker Full Electric Feature And Application

If the goods to be handled by the enterprise or the warehouse environment has requirements on environmental protection such as noise or exhaust emission, consideration shall be given to the selection of vehicle models and configurations. If it is in the cold storage or in the environment with explosion-proof requirements, the configuration of the stacker shall also be cold storage or explosion-proof. Carefully inspect the places that forklifts need to pass during operation, and imagine possible problems, such as whether the door height has an impact on the stacker when entering and leaving the warehouse; When entering and leaving the elevator, the influence of elevator height and bearing on the stacker; When working upstairs, whether the floor load meets the corresponding requirements, etc.

4. Product Details of the Hand Stacker Full Electric

Main Parts

Nylon wheel: Suitable in both cement hard ground or painted floor, strong and wearable.

Foot Brake

With foot brake, it is easy to operate, time-saving and labor-saving, and enhances safety.

Operation Panel

Easily operated panel, beautiful painting and design.

Customized Leg

The fork and leg can be customized to different size ,which is applicable for different pallets.

Forging fork is firm and hard to deform.

5. Product Qualification

Shanghai Yiying Hoisting Machinery Co., Ltd. is an enterprise specializing in the production of small hoisting tools and hoisting machinery such as electric hoist, chain hoist, chain hoist, monorail trolley, Jack and tank car. The headquarters of the company is located in Baoshan, Shanghai. With developed economy, convenient transportation and effective resource allocation, the enterprise has the advantages of climate, geography and people at the same time. We advocate that service without after-sales service is good service. We have the confidence and responsibility to ensure that each set of goods is subject to rigorous inspection before leaving the factory to ensure the safety of users.

6. Deliver, Shipping And Serving

package of semi electric stacker :1piece on the pallet

Port

Beijing, Tianjin, Shanghai, Guangzhou
